PROFESSIONAL EXPERIENCE

FULL STACK DEVELOPER

Taksidi & The Boat Trip, Warsaw, Poland | 08/2025 - now

- **Tech Stack:** Node.js, NestJS, Express, TypeScript, Next.js, PostgreSQL, Docker, GitHub
- Designed and implemented a scalable market analysis platform that transformed external data into structured business insights
- Maintained and developed client-facing web applications, delivering new features and ensuring reliability
- Collaborated with stakeholders to shape product direction, discuss new ideas, and define software improvements
- Contributed to technical decision-making, proposing solutions focused on scalability, maintainability, and long-term development

MOBILE DEVELOPER

Holis, Warsaw, Poland | 04/2025 - 08/2025

- **Tech Stack:** React Native, Expo, Typescript, Sentry, GitHub
- Developed and delivered a cross-platform mobile application (iOS & Android) using React Native based on provided business requirements
- Collaborated with the IT team from initial product concept to a production-ready mobile application
- Contributed to architecture decisions and technical direction of the project
- Proactively identified potential risks and proposed scalable solutions
- Implemented clean, efficient and user-friendly UI aligned with modern industry standards
- Supported backend development and ensured smooth frontend-backend integration
- Actively contributed to solving technical challenges
- Participated in product discussions and contributed to shaping the overall solution

JUNIOR FULL STACK DEVELOPER

DREAMAI TECHNOLOGIES, Warsaw, Poland | 01/2025-08/2025

- **Tech Stack:** Node.js, NestJS, React, GatsbyJS, Strapi, MongoDB TypeScript/JavaScript, HTML, CSS, Bash, Git/Bitbucket
- Maintained and developed new features for internal CRM system
- Contributed to the development of a European-scale LMS platform supporting logistics operations
- Integrated external APIs and third-party services
- Worked with MongoDB and Mongoose, optimizing and creating database queries
- Refactored legacy code to improve maintainability and long-term scalability
- Identified and resolved bugs, delivered hotfixes, and ensured system stability
- Collaborated with IT and marketing teams to translate requirements into technical solutions
- Actively participated in Agile processes (daily stand-ups, sprint planning)

FULL STACK DEVELOPER

BUJNICKA DENT, Warsaw, Poland | 01/2022-09/2023

- **Tech Stack:** Node.js, Express.js, React, React Native, MSSQL, GitHub, Azure
- Designed a system featuring patient self-registration and appointment booking, complemented by a number of corresponding administrative processes
- System consists of web application, mobile application, REST Api and a relational database
- The entire solution is strongly focused on security aspects

”

Software engineer with over 3 years of commercial experience, building web and mobile applications from concept to production. I enjoy solving complex problems and working across the full development lifecycle, combining backend, frontend, mobile, and infrastructure to create reliable, scalable, and user-focused solutions. I believe good software is not only functional, but also intuitive, maintainable, and built to last.

”

EDUCATION

2025 - now

Computer Science, Master degree in Software Engineering

POLISH-JAPANESE ACADEMY OF INFORMATION TECHNOLOGY

2017 - 2024

Computer Science, Bachelor degree in Software Engineering

POLISH-JAPANESE ACADEMY OF INFORMATION TECHNOLOGY

Speciality: Business application programming

LANGUAGES

- Polish - native
- English - B2
- German - A1

BARTOSZ ART

FULL STACK DEVELOPER

SKILLS

- Technologies: JavaScript, TypeScript, HTML, CSS/SCSS, React, React Native (Expo), Next.js, Node.js, Express.js, Nest.js, Jest, Sentry, Bash, Relational databases (MSSQL, MySQL, PostgreSQL), MongoDB, UML, Git, GitHub, Docker, Azure
- Proficient in modern development practices
- Experience in creating RESTful services using best programming practices
- Good understanding of software performance, browser/server rendering, static sites generation, and JavaScript runtime
- Comfortable with clean coding principles, design patterns, software architecture, code optimization, and code documentation
- Strong analytical, problem-solving, debugging and troubleshooting skills, ensuring smooth application performance across different browsers and devices
- Analytical approach to business requirements
- Critical and goal-oriented thinking
- Collaborative and knowledge-sharing
- Attentive to detail

CHARITY

PROGRAMMING 101 TEACHER/TUTOR

POLSKIE STOWARZYSZENIE PROMOCJI OŚWIATOWYCH, Warsaw, Poland
I 03/2023 - 06/2023

- Introduced students to the basics of object-oriented programming using C#
- Demonstrated software design patterns, algorithms and data structures.
- More than 50% of students declared willingness to study IT
